

**SIPPE 2010 Shanghai 5th International Petroleum&Petrochemical Technology Exhibition
Shanghai New International Exhibition Center (SNIEC)**

November 25-27, 2010

(SIPPE) is an exhibition and forum focusing on technology and equipment for the petroleum, petrochemical and natural gas industries. Now in its **fifth year**, the event has already established a strong reputation as an influential exchange platform for those involved in the Chinese industry.

With visitor numbers growing rapidly year-on-year, and increasing participation from overseas enterprises, SIPPE is now becoming an event of international importance. SIPPE2010 will be held in the biggest exhibition center in China- Shanghai New International Exhibition Center (SNIEC)

SIPPE 2009 welcomed over 400 exhibitors from more than **20** domestic and foreign countries and regions, as well as more than **16,000** professional visitors, of which more than **3,200** were from abroad.

SIPPE 2010 boasts a larger, more suitable venue, increased government support and funding, and an array of globally recognised exhibition supporters – including **China Petrochemical Corporation, China National Offshore Oil Corporation, China National Petroleum Corporation, American Petroleum Institute** and **Gazprom**.

Our organising team has been expanded and we are doing our utmost to make this year's event the most influential and internationalized yet. It is expected that about **700** exhibitors and over **20,000** professional visitors will attend **SIPPE 2010**, confirming its standing as one of the fastest-growing petroleum and petrochemical shows in the world.

This year's event will invite **more purchasers** than ever before, offering financial compensation for travel and accommodation. We welcome purchasing groups not only from the major oilfields of China, but also – thanks to the financial support of **China Council for the Promotion of International Trade (CCPIT)** – from overseas. We have already secured the participation of purchasing groups from the Middle East, Africa, South America, and Asia.

Additionally, we have signed cooperative agreements with more than 20 industrial organisations, and over 50 professional media outlets from home and abroad, to help spread news far and wide.

We welcome you to Shanghai 2010!
